

Irfanul haque Iffat

Motivated and detail-oriented individual with a solid academic foundation, having achieved a CGPA of 3.50 in both SSC and HSC. Proficient in web development technologies including Node.js, React.js, JavaScript, CSS, and HTML. Eager to leverage strong programming skills and creativity to contribute to innovative projects in a dynamic team environment.

Qualified Front End Developer excited at the prospect of managing website and developing expertise network in a professional setting. Efficient worker recognized by peers for my effective Communication and Creative Thinking skills. Looking to apply my understanding of project management and social media platforms at your company. Web development .
